- 55 FT water depth by 2025
- 12 Super Post Panamax ship-to-shore cranes
- 56 semi-automated stacking cranes
- 1,200+ reefer plugs
- 19,644 linear FT of on-dock rail track served by CSX & NS

TERMINAL OVERVIEW

- Semi-automated container terminal with an annual throughput capacity of 2.2M TEUs
- Able to accommodate three ultra large container vessels (ULCVs) simultaneously with 4,000' of effective berth capacity
- Container yard consists of 28 semi-automated stacks, served by 56 semi-automated stacking cranes, and can easily process more than 3,500 truck transactions per day
- 19,640 linear feet of working track arranged in eight 2,455 foot sections directly served by Commonwealth Railway with on dock connections to both Norfolk Southern and CSX
- Located adjacent to State Route 164 (4-lane divided highway) with direct access to the I-64 and I-664 interstate systems
- Utilizes PRO-PASS®, the port's own trucker reservation system, to increase productivity at the gates and ensure industry-leading truck turn times
- Recently underwent a three-year, \$312 million investment, completed in 2019, that reimagined and re-engineered the terminal, doubling VIG's container and rail capacity to 1.2 million units and 480,000 lifts respectively and earning Lloyd's List "Excellence in Port Management and Infrastructure Award" (2019)
- US Customs-designated port of entry with full range of customer functions
