OFFERING UNLIMITED POSSIBILITIES

- **Premier RoRo facility.** The port's primary roll-on/roll-off and breakbulk terminal can seamlessly accommodate autos, construction & farming equipment, and heavy-lift machinery. The multi-use terminal also offers diverse, specialized handling capabilities of lumber, metals, military equipment, heavy out-of-gate cargoes, and much more.
- **Direct highway & rail access.** With direct access to I-64, RT-17, and RT-60, NNMT allows customers to efficiently deliver cargo throughout the eastern seaboard. In addition, on-dock CSX rail access allows inland cargo movement with the ability to transfer with Norfolk Southern in Richmond.
- **Dependable storage capabilities.** The terminal offers more than 1M SF of covered storage and more than 60 acres of outside storage with the opportunity to build additional warehouses or specialized cargo handling facilities for potential customers.
